

derstanding- we'll do everything we can to make it easy for you

If you find any class ~~EE~~ isn't worth your while, if you think you're wasting your time, you come tell me about it. I don't care whose class it is. You come and let me know. We don't want to waste your time but we want because three years is a mighty short time to work to serve the Lord. So our testimony here, our position, our stand, our history is for hard work, for intensive effort, for learning to serve the Lord effectively. We also believe in stress on the practical aspects tremendously

But do put your stress on the practical work. We want you to be out preaching

but we want you to be out in a Sunday School class, speaking on the street Had a fellow here fifteen years ago and we tried to get him to teach a Sunday School. "Oh", he said, "that's not what I came for. My work is preaching. I couldn't do that." He wouldn't do it. We couldn't get him to. Five years later, got a letter from him. He had a little bit of a church up in Canada. He said, "You know I have a suggestion for improvement of the seminary. Why don't you teach the students how to run a Sunday School, how to develop a Sunday School? It would mean so much to me up here if I knew how to do it."
