

you do--whether you do it or not--" he said, "get that course that they give at Princeton Seminary. They give ~~an~~ a soundly more in the evidences of the truth of the Word of God. You get your feet on the solid rock. You should get that before you get any more of this." Well, I was tremendously impressed the way he spoke, and letters from of my old friends at Occidental were telling me at Princeton Seminary how they would go into Dr. Machen's classes and would hear him giving the evidences and the dependability of the New Testament. And they would go into Dr. Robert Mc--- and hear him giving the evidences of the dependability of the Old Testament, telling how much it meant to you to get these facts and to see that even though in our world today there is propaganda widespread that the Bible is ~~absolutely mythical~~ just a tissue of myths. Facts that when you get down to them and examine them fit into the statements of the Word of God. and show that the Word of God is absolutely dependable. And these men were so impressed that they kept writing me urging me to come to Princeton Seminary and get the course. And when Dr. Torrey put in the same word, that they had put in, I decided to go to Princeton Seminary.

Well, I went to Princeton Seminary for three years, and found at Princeton the things I had been told to expect. I found no and I'll always be thankful for the good things I got there, and some other things I didn't like there. ~~So~~ some things that I was very sorry to have, but my Bible Institute training helped me in , so I was very grateful for the three years at Princeton.

Now just a word about the good things and a brief word about the things that weren't so good. As to the good things,

~~But at Princeton~~

a great many fundamentalists would talk the same way. But as Princeton revealed the emphasis was on getting down to the facts and seeing ~~that~~ what the facts said, and when you got down to the facts, it was amazing to see how they fit in with the statements of the Word of God at point after point. And the more carefully
