

evidence and ~~sixxxxx~~ stand on those doctrines.

But now beyond this there are a great many other matters on which Christian people differ. ~~Whatxxxxxxxxattitude~~ Watch your attitude on this. Your attitude shouldn't be <sup>or</sup> too extreme. You shouldn't say "Oh, it doesn't matter; they are just minor matters." There's nothing that is a minor matter if God has taught it. But God gives his children certain independence. Here's the other attitude: "These things are taught and we must stand on them; we must work only with people that agree with them." That's not the true attitude.

~~The~~ I think the attitude is this: Here are all these things clearly taught; we stand for those things; we work with men who are with us on those things; there is no sense in working in those men who differ with us on those great fundamental things of God. Here are lessons ~~xxxxx~~ clearly taught, we think, in the Scriptures; we get great blessing from them; someone else disagrees with us. Well, let's get into the Scripture; let's study it; let's sit down together; let's try to discuss these things in a friendly manner; let's see how much we can work ~~xxx~~ with others who differ with us on some of the lesser things; and let's try together to get to the point ~~xxxxxxx~~ and see what the thing is. This book isn't simply a book of mathematics which gives you a lot of ~~things~~ theories, and you simply accept those and that is all there is to it. It is a book which is one of the most porpound books ever written. You could never get to the bottom of it. God wants us to take it, and to dig into it, and work with it, and get the light and <sup>spread</sup> ~~shed~~ that light all we can; but to be charitable with others who differ with us on the lesser things that are talked about. "

That is the attitude which I think should be our attitude; and I have done everything I ~~xxxx~~ could in these last eleven years here at Faith Seminary to try to make that a dominant attitude here. I think it is the attitude that God is going to ~~xxxx~~ bless. And I think the was some of our graduates are being used of the Lord in many parts of this country and many continents abroad shows that it is the attitude that it is the attitude would God bless. Yet
