

But I didn't know just what was going to happen at Princeton. I wanted to spend a third year there. The NT Times when it got over there was too early, the Assembly hadn't yet met so I didn't know what had happened at the Assembly. They ran Dr Wilson for Moderator, and his wife told me while they defeated him for Moderator, yet the people rallied around him so as that it was almost a great time of celebration for him, and of course everybody spoke well of him but simply voted for the other people for Moderator. I'm not sure who was elected Moderator then. I think it was pretty close. But if he was elected Moderator of course he'd be expected to go around the country to speak everywhere and he wrote me and said, If I am elected Moderator I will certainly need your help at Princeton. He said if we should start a new school we would certainly want your help. Paris I didn't know what was happening, The Paris edition of the New York Herald Tribune might or might not have something about the general assembly. But whatever happened was past ~~max~~ and I could not get access to the old issues of that. While the issues of the other paper from over ~~x~~ here== you see the two just crossed -- so that I could not get information. I got a note from Dr. Allis and he said, We are starting a new school and of course Dr. Wilson wants you for his assistant, but he said, We need some books. Would you go to Leipzig and buy some books for us? I went down to Leipzig and bought the books. Then I wrote and said, I really think I should have another year over here. I said, I better stay for another year, and I thought maybe they would insist that I come right away. But a week or so passed. The mail of course then was slow. A week or so passed. I did not have word. I went down to Austria and spent about 10 days at a place in Austria and left word with the American Express to forward my mail. After the 10 days I got no mail, so I went off and went through Italy and Austria and did not see a person I knew
