

it was that I was on the NIV because on the list of people right next to me was the name of a fellow who was teaching in a seminary in Chicago that wasn't sound. That doesn't prove the fellow wasn't sound--that he was teaching in a seminary that had unsoundness in it. He has left there since and gone to Bethel where he is teaching. But his name happened to be next to mine in the list. He was all upset about that.

All in all it was a very unsatisfactory week that he was there. Then Lee in Dunzweiler's class would listen for some sentence he could pick on. He'd write it out and go and show it to McIntire. Look what he said in class! Out of context you know. One time -- once or twice he took over the whole class, ~~Lee~~ Lee did. I put a notice on the board that nobody -- everybody should realize the professor is in charge of the class. When questions are asked it is up to the professor to decide how much or how little time he wants to give to it, etc.

It was quite obvious what he'd done. Then I think he did it again. Dunzweiler began looking around for a church then. Vannoy had an invitation to go to some other seminary to teach. He had several of them. Things picked up to where it was quite obvious that the seminary would not be the same after the next summer. If Woodbridge had been president, I don't think he would have taken it, but if he had he would have fired those two out of hand and I'm quite sure the rest would not have lasted long. It would have been an entirely different institution.

Finally I wrote a long paper stating things I felt were wrong, and read the paper at the Board meeting. After I read it McIntire said, there would never be such a paper as this presented. Let's everybody give them back to him. Give him all copies of it. They proceeded then to vote to raise my salary \$2000 and retire me from active teaching or administration. And then they voted to introduce we have no tuition -- which (thing) we'd never had in 34 years, to introduce \$1000 tuition fee plus \$200 for room rents for the year, which we had never charged anything for before.

New Jersey had just forced Shelton College out and so -- they had built a wonderful building there for the college in Cape May and McIntire said they should use the building and so they should move the seminary down there. So they voted to move the seminary down there! I said to ~~myself~~, myself, Faculty members to these folks are a dime a dozen. They weren't even consulted! They were going to move them 100 miles and everything without any of them knowing anything about it and adding this tuition all the sudden when there hadn't been any before! All this! I said the board was a bunch of zombies. Whatever McIntire said, they did. He was very much upset when I called the Board zombies but that is what they were. They just did what he said.

I did not mention that Randy Pond, the son of one of the directors, was a first year student that year. He was right behind Ken Lee. Lee made him take the front. They had a meeting. They were going to organize a 20th Century Reformation Club. I've always been against any clubs or groups that make a division. We had a
