

as one who had done some important work on the ~~the~~ life of Herod ~~and~~ Antipas. He has a theory of his own on the 70 weeks of Daniel, which I had already read. The group immediately set to work discussing the precise ~~work~~ wording of the statement that we had been given. As time went on I learned that one of It seemed as if most of the others in the group knew each other rather well; at least they acted as if they ~~were~~ were pretty good friends. I did not know anyone in the group when we started talking. Eventually I learned that one of them was [the name slips me now, the man who has written Evidence that Requires a Verdict] and two or three other books of similiary type. He is very active with one of the groups that works among college students.

We did not stop at the lunch hour, but went right on, so we went and ate at the very end of the lunch period. There were many meetings. There were gneeral meetings, most of which I skipped. One of them which I attended I remember very well. It was the pastor of the big Baptist church in Dallas. It was an evenign meeting, and he gave a marvelous message. No, the church is not in Dallas; no, I'm not quite sure. He is a very well ~~is~~ known man; I don't think of the name at the moment. That was on, I believe, the second evening. Later I was again assigned to a group to discuss the working of various proposed statement. This group again did not include anyone I knew, but ~~xxxxxxxx~~ this time we all had name plates on us which gave the name, but I did not recognize the name of nyone in the group. Whenever I made a suggestion it was not paid much attention in this particular group, which seemed very anxious to get every little detail exactly as they wanted it. One member of the group seemed to me particularly unfriendly toward me. His name He a His name I noticed, and it struck me as somewhat fmailiar, but I didnt' didn't recall every hearing of him. Later it developed that he was the book review editor of Christianity Today. Soon after Dr. Kantzer took that position he was moved to another place. His name will come to me. I believe I heard later about him, that he came from a Plymouth Brethren background and reacted rather strongly against it, and now is very strongly opposed to separatism. Kantzer seemed to feel that this fellow had been responsible for the way my book on Isaiah had been downgraded (this was before Kantzer became editor of the magazine).
