

We've never had anything in the world like this before. We had terrible, wicked, ruthless men who have sought to conquer the world. We've had men like that through the centuries. We've had individual violent, brutal men who have done terrible things, and have done very clever subtle things that have tried to undermine the Word of God. But a remarkably successful movement of the type of communism has never gotten any where like the headway in the world before that it has today. So I feel that the Christian is not in any sense going into politics when he says we should be aware of what this is, and of what it means. Communism is the incarnation of hatred. That is why it is easy for the communists to construct a cohesive force and that is because they appeal to the emotion of hatred. There is no man anywhere in the world in a position of importance who has not offended other people. It is impossible. You cannot help it unless you stop and become extremely careful with every individual you meet. And show him friendliness, you can't help offending some people occasionally. If a man is in a position of any great importance he has so much to do that he has to push forward even though sometimes unintentionally he is hurting the feelings of other people. Sin being what it is in the world, the great majority of those people who are in positions of influence, and effective accomplishment -- not only unintentionally but from the wickedness of their heart, injure other people sometimes. And the personal slight is what stays in your mind. Therefore it is very easy by appealing to that, to get almost anyone if you have a chance to appeal to that long enough, to develop a spirit of hatred in which he is just ready to fly out and destroy blindly. Consequently by communist propaganda a spirit of hatred can be developed and individuals can be brought into the situation where they can be moulded and twisted and used at will by those who

them.

People talk a great deal about Marx and Marxist ideology. In my opinion Marxist ideology is to communism like the red white and blue flag is to the United States. That's a wonderful flag and we greatly rejoice in having that flag, but if instead of red white and blue we had had green black and yellow arranged in circles instead of bars, if that's what the founders of our
