

our attitude toward other people. Now, attitudes towards ~~prophets~~ ^{Prophets} (?13 $\frac{1}{2}$) for instance. I was rather shocked last week to hear that somebody found in the library upstairs one of those fine chairs that were given us for the library, a strong chair, and one of them was found upstairs with a leg of it broken. Well, now.....13 $\frac{3}{4}$ of one of those chairs. One of those hadn't in two years simply worn out so that it ~~was~~ broke. Somebody broke the leg of that chair. Now we all have $\frac{1}{4}$... and we need to work them off, and we ~~we~~ ought to get outside and work them off in exercise outside. Sometimes we forget ourselves. And are working off inside where they do damage and where they injure, and nobody is going to feel that it is a terrifically bad thing if a person has ...14 $\frac{1}{4}$... But I can't imagine a person loving the Lord and loving His Word, and doing anything like that, and not feeling that he should immediately go, ~~and~~ and immediately make his ...14 $\frac{1}{2}$..., and express his sorrow for his desire to do what ever should be done to ~~remedy it~~ remedy it. But to just leave it~~d~~ and go off...14 $\frac{1}{2}$...end of Record 2

.....special criticism here, because it is the attitude of sin which is in the heart and in the mind of everyone of us. But I am saying that it is very vital that ~~we~~ look this attitude in the face and we ~~think it~~ think it through, and we realize what it means. And we look to the Lord to help each one of us to overcome this attitude, and to make the progress in classification that we want them to make, and that we must ~~make~~ make if our life is to be worth anything whatever in ~~his~~ kingdom. The same is through of reserved books in the library. I heard just recently of a course in which a book was assigned and there was one copy in the library, and the copy disappeared, and I saw a note put up, ~~and~~ whoever took this book, please come and tell us about it, when you brought it back, ~~and~~ where you were using it. It is all right to use it in the library, or in the Van Dyck room, but there are thirty other ~~study~~ students needing the book, and for ~~and~~ somebody to walk off and keep ~~it~~ it ~~to~~ to himself for a period of time so that no one else can get at this book, it is just the same if you took money out of the pocket
