

where to put his foot, and I didn't have that experience. I didn't have that training. But as I would see him ...ll...down, and he would get to me and sit down, and I would go again, it was a temptation to ~~just~~ just go ~~carelessly~~ carelessly only I knew if I had about the third step I would go sailing down the side, and he would have to hold me back on that rope. Take it by the tail. Use the proper method of doing it. God gives us His word to study, and God gives us the experience of Christian men~~to~~ to learn about. God gives us means to learn to acquire skill, and to acquire the knowledge to take ahold of situations, and to handle them, and to go through life.

They called on David to fight Goliath, and Saul said here, Take my armor, and David put that great big heavy armor on him, and he felt awkward, and clumsy, and David took it off. And David said, I have not proved it. Give me my little sling shot. And David went out with his sling shot, and he killed Goliath, but I never read of another battle in which David went out and used a sling shot. The sling shot was a little poor method of fighting, but it was the best David ~~had~~ had then, and there was a crisis, and God used what David had, but David went on and learned to use the armor. He learned to use the ~~the~~ sword. He learned to use the more skillful means, and he was a great warrior for God. ~~In the time of crisis~~ In the time of crisis God may give a great victory to the man who does not know how to do it, but over the course of the life-time He wants us to study the ways and methods of doing things effectively, and above all he wants us to study His Word that we may know exactly what it teaches, and exactly what it means for us to do in connection with any particular type of situation that may arise. Moses took up the serpent, but God told him how to do it, and we have many many situations in life to face that we can face victoriously for God if we first learn how He wants us to do it. They ~~shall~~ shall take up serpents. Moses ~~took~~ took up a serpent, but he learned from God how to do it, and God wants us to learn in our life how to handle the situation that he puts before us. Well, now, if this does not mean, they shall take up servants when they go out, and that's the way to attract attention, to spread the gospel, and if it doesn't mean
