

a person is willing to suffer and die in order to save thousands of others.

Oh, to me, it was a tragedy but it is the atmosphere which ~~a~~ has been spread through our educational institutions and much of our literature and if anybody 40 years ago had ~~said~~ said this was going to be done, and ~~by~~ people's minds were going to be permeated with such an attitude, I'm sure that they wouldn't have believed it, people would say Why, you couldn't make people so irrational as to ~~think~~ think we can do away with ~~the~~ police, and everything like this, or that we can do away with armies, in a time when a third of the world ~~was~~ is held by those who hold their people in brutal ~~and~~ slavery under the lash and are trying to get the rest of us in that situation, and yet that propaganda has been cleverly spread over a period of time, until it no longer seems ~~so~~ strange, ~~and~~ many of us I'm sure just kind of wonder now, is that right after all.

Is it perhaps right that war is utterly wrong unless we are attacked. You might as well say police are utterly wrong, you might as well say You shouldn't defend yourself no matter what happens, and that is a beautiful doctrine for the time when our Lord Jesus Christ is here reigning on this earth, which he is going to be one of these days, and when that comes, we can have peace and ~~a~~ happiness and joy and nobody will have to prepare any weapons of war, but in a n age like this one, we must watch out ~~for~~ for the sleight of men, and the cunning craftiness whereby they lie in wait to deceive us. God wants us to learn to think for ourselves
