

wants us to know that we can trust this book ~~because~~ because it is God's word
it is free from error in the original manuscripts and of course ~~there~~ there are little
errors of copying but they don't amount to much, I think that ~~the~~ the Lord inten-
tionally allowed ~~for~~ them to come in so that we ~~would~~ would compare scripture with
try to
scripture, and not ~~build~~ build too much on one isolated verse, there aren't many,
just ~~enough~~ enough . . . that you cannot take just ~~one~~ one verse and build on it,
but you notice with Tyre I had three different statements here, and anything
that the Lord wants us to know , He has usually stated in ~~His~~ His word and repeated
in some words ~~some~~ somewhere else, He ~~has~~ wants us to compare ~~scripture~~ scripture
with scripture. He wants us to trust the Word, and He wants us to grow thereby.
Our ~~responsibility~~ responsibility to ourselves is a very real ~~part~~ part of our responsibility
to God. Let us pray.
