

thus by gradual changes there is evolution. Now, Darwin thought of this theory and he thought he'd like to write a book about it. So, he wrote up his theory and put it in the safe, and more or less he had forgotten about it for a number of years. He read the book that I just referred to ... this was a parody ... he was very disgusted with it, and he wrote a copy of the had sc_____ving notes in the margin of his book, but his own theory he put away ~~it~~ in the safe, and he was often ~~disgusted~~ with Huxley, and Huxley said, I just can't see it. I just can't see it at all. Then the time came when another lad, a friend of Darwin who was over the other side of the world on the scientific expedition. Not having much to do one day, not finding much around to read, he happened to pick up Malthus' book, the same book Darwin had read, and he picked up Malthus' book and read it, and when he read it, the same idea flashed into his ~~mind~~ ^{head} which flashed into Darwin's ~~mind~~- head. Why, that is the way one species changes into another. And so Waller wrote a letter to his good friend Charles Darwin, and he said, I thought of a clever idea, I'd been ~~just~~ ^{the struggle for} just reading Malthus' book and thought of a clever idea of/the survival ~~for-the-fittest-~~ and the survival ⁱⁿ for the fittest. And that is how one species changes/to another. Darwin had read Malthus' book and got the same idea 20 years earlier. And he had this theory written in a safe where he had written up. And he said to his friend, what am I going to do? So, the friend told him, and he said, well, you just go ~~the~~ to the Scientific Society, and read what you had written about 20 years ago, and also read to them also what Malthus had written and present the two. And Darwin did. And there not much interest at the Society. And those who were present mentioned it rather uninterestingly. But then Darwin thought, somebody would get the idea and write it up. May Wallace might. So, I had better get ~~out-the~~ ^{my} book out. And so, he wrote to a publisher, and he had asked the publisher to publish the book which he hurriedly wrote up, not nearly as long as he wanted ~~it-~~ to, but he hurriedly wrote it up and he had asked
