

but he determined to do this job, and he needs to learn that the Lord's will for him is this job. I knew a man who was the finest man I have ~~ever~~ ever known that the scholarly study of the Word of God was what was needed. It is needed. It is greatly needed, but he did not have the quality to do it effectively. ≠ He made great sacrifice... He went over to Germany, ~~th~~ where he studied six years and got a Ph. D. and then he came to the British museum and asked for a position there, and they said that since there is only one applicant for this particular position, they would not fill it just now. The reason was that he did not have the quality for this particular position needed. I know of another man who feels that we ~~we~~ need great teachers, and he spent great many years of study and went to Holland and got a Ph. D. degree, but he failed ~~in~~ ^{as a teacher} three different ~~Christian~~ schools, and ~~now he is out--~~ he is an earnest, consecrated Christian, but does not have the particular ability that is needed for teaching. I know of others who are wonderful ~~but~~ Bible teachers, I know of others who have ^{the} been just ~~reverse, who-~~ I know of some people who are wonderful Bible teachers, but they do not think anything matters put ... evangelism.. They are determined to do evangelism and they are no good at it. Different people have different qualities, but some people have several qualities. But the most important thing is to know which is ... which are important and ~~which are not-~~ we cannot necessarily tell. The thing is to know ... God knows what the qualities are. He knows that you go on in this direction and it does not matter if you are going up to Philadelphia, you may go by any one of quite different routes... God knows what the corners are. He knows that you go on this direction and ... and it does not matter which you take. On the other hand you may start out in the direction that will take ^{an} you to ~~entirely~~ different part of the country. God knows whether you are going through one of the several different routes that converge, ~~and-~~ or whether you are oing in one that diverges and goes off to the direction that is contrary to His will. Sometimes, we get so excited to try to decide what kind of work they should do, trying to decide where they should work, ~~///~~ That they miss the primary thing which is how ... where the Lord wants them to work. There I think that one thing
