

are not serving the Lord. I knew a man who was educated as a doctor, and when he finished his education, he didn't feel like practicing medicine, he thought he ~~would~~ would be interested in medical research, so he ~~says~~ said, I'm going to make a million ~~or~~ dollars, and endow a big laboratory where I can do a lot of work in medical ~~research~~ research, so he got busy and decided to get ahead and he got ahead, and pretty soon he had a whole chain of theatres up and down the ~~of~~ Pacific Coast, and then the depression came long and as he told me, I made the fortune in order to finance the research, and then the sheriff took the fortune, and his life that he wanted to devote to and had to make money to do it, medical ~~research~~ research just disappeared ~~x~~ like that. God may ~~want~~ want you to make a lot of money, ~~x~~ to help Christian work but be mighty sure He doesn't ~~isn't~~ isn't. The question ~~is~~, Are you called to serve the Lord. The question is, In what capacity are you called to serve the Lord, and you should be just as sure that the Lord wants you to ~~κ~~ give most of your ~~ti-~~e-time to some ~~x~~ secular work as you need to be that he ~~wants~~ wants you to give your time to direct service to the Lord. Our responsibility to others is great but it is very difficult from what most of the social planners think that it is. Because it is a duty that relates not just to this age but it relates to all eternity. Let us ~~κ~~ pray.
