that these things that it is just inconceivable that anybody would have believed 30 yrs. ago. I don't know what's ahead for our nation. We are you might say, a little group apart. We don't have much contact with it, but you can't pick up newspapers and magazines and read much until you see the ideas that are so widespread today. If they succeed in getting a man like MacGovern as president, or even Humphrey, I wouldn't be surprised if within 10 yrs. these communists would take over. If they do Christians will be subject to torture, subject to suffering. And if so will you be able to stand true to the Lord. Will you be able to stand true despite torture, despite suffering, despite brainwashing? Or will you be like the fine man who came and visited me 20 yrs. ago and he said, I've been editor of a Christian paper in China. I'm known all over China for my stand for the Lord and for my fine Biblical teaching. And he said Now the communists have taken over, I'm here in the U.S. and I'd like to attend some of your courses and advance my studies, but I feel I should go back to China and should present the Word of God. And they gave him a very fine position in this church. And he helped the communists while at the same time bootlegging a lot of real good Christian teaching into his paper and getting it to the people and speaking around, but little by little they crowded in on him, crowded in on him, until finally -- if you get that book published by the Moody press, called COME WIND, COME WEATHER -- you have an account of the events in those years, and it tells about him. His name slips my mind at this moment, it tells about him and it tells how finally the time came when he stood up in a great congress there in China and he declared that the regime was crushing out Christian teaching, making it really impossible for him ~~to~~ really to give it. Pointing out how many churches they had closed, and said he must speak out against it and they published his paper all over China. But in
