

head to get up to my knees of that tremendous statue . Oh, dozens -- hundreds of images there today in ancient Thebes. "I will destroy the idols and cause the images to cease out of Thebes." Well, I came up to a building there. Maybe the ~~x~~ width would be as wide as from here to the back of this room. The length of it would be as long as this room, perhaps a little bit longer, and the height~~k~~ about the height~~k~~ of this room. This room stood there , and there ~~was~~ was only an entrance at one end of it. I came up to that entrance. There was a man in a long , white gown ~~at~~ sitting there. I stepped up to him, handed him my permit from the Egyptian department of antiquities , he took it and looked at it, ~~stepe~~ stepped to the door, took his key and opened it, and we ~~w~~ stepped into a room that occupied about one third of the space, and ~~x~~ in this room there were were a row of columns on both sides, nothing else in the room. You could dimly see in it , because all the light that came in was from that door at the end. Then we stepped through a door into the next room which was about the same size, again with columns on each side, nothing in the middle. The only light that came in through that door and through the next door, so you could still see your way around, but not very clearly. Then we step through the next door to the third in the room there, and it was pitch dark in there . He took a little taper and lighted it and held it up and there at that end of the room was what looked like a pulpit, only about this only flat at the top and on ~~xxx~~ that was lighted a life size statue of the monkey headed god, an idol which was there at the time of Ezekiel and long before and remained there to this day, and there are dozens , perhaps hundreds of idols which are still there today in ancient Thebes. But this doesn't say,"I will destroy the idols and cause the images to cease in Thebes, It says that of Memphis. Well, what happened in Memphis? Well, Ezekiel wrote this statement and a thousand years passed, and a thousand years after Ezekiel wrote this statement you could have gone to ancient Thebes and there ~~x~~ you would find great ~~xxx~~
