

change is coming as described here , even as the body divides up into the two legs and then the ten toes, you have the attempt after attempt made to join together these different countries which formed the Roman Empire but none of them succeeded because of different cultures that have developed in each of these and even now when Kennedy was hoping we were getting these countries of Europe together and we were going to have real unity of the Western world , you see how DeGalle has struck out against it and how this feeling of nationalism is so ~~storn- stor-~~ strong there. You have the iron and you have the clay of the mixture. And we have a situation which is pretty well ~~x~~ pre-figured in what Daniel ~~xx~~ said to Nebuchadnezzar there nearly 2600 years ago . Well, now, in the picture of the image you see thus far up to the present day, but then he said , in verse ~~34~~ ³⁴ , "Thou sawest until that a stone was cut out ~~without hands~~ without hands, which smote the image upon his feet ~~that~~ were of iron and clay, and brake them to pieces." And the stone that smote ~~them- the- great~~ the image became a great mountain and filled the whole earth," And Daniel ~~explat~~ explains in the end how this means ~~tha~~ t God is going to se t up a kingdom. That ~~ge~~ God is going to bring an end to the chaotic situation that we have in the world. That God is going to destroy this imperial , nationalistic situation that we have as continued going through these different ~~state-~~ stages every ~~time~~ since the time of Nebuchadnezzar that he is going to set up a kingdom here ~~th- wi w~~ that will put an end to the remnant . These kingdoms that were a mixture of so ~~n~~ much that was good and so much evil and set up his kingdom of righteousness upon this earth. That of course we ge t out of the field of fulfilled prophecy ~~in~~ and get into unfulfilled
