

~~7/4~~ 7/4/75 Clark's sermon #3

what he gave said about it now was necessarily quite incomplete,
just about everything that he said was good, and I was glad to hear him
~~stated~~ it stated.

I told him after the sermon that I had greatly rejoiced in the
fine positive teaching on Chn° truth he had given. He was pleased with
the compliment and mentioned that this was not the way he had started
his preparation of the sermon.

I have long believed that there is nothing in this world that is
wholly bad. (mosquitoes?) Something that was entirely bad would
immediately completely fail. When anything succeeds for any length of
time there is some ~~good~~ good in it, even if most of it is bad.

Certainly the new body is different as far as its chemical constituents
are from this one. Of course ~~much (ac)~~ *many features are only probably* it looks like this
one, ~~and~~ *but* how much (it has in common with it is, as far as I know,
nowhere stated in the Bible.
