

God's purpose is to make those spirits that will live with Him for all eternity, to make them such as He wants them to be. And if you get a sudden crippling disease, do everything you can to get it cured, yes. But if you don't succeed, don't feel badly because that means then that God has something He wants to do for you through this and that it is part for His purpose for you in your sanctification. Set your heart on some particular place you want to work, some particular type of work and it does not work out God has something else in mind for you, but what He is more interested in is how you take the disappointment, how you take it, how you develop~~ed~~, whether you are developing into the kind of spirit He wants you to be.

Let us try to understand what the will of God is. Let us realize that God has a part for everyone of us in His will which may not be what would appeal to us, but He will make it known if we really keep our eyes on what is above. And let us realize that we are a part of His will, and that our development is even more important than our work. And many a man has preached to others and has become a castaway. O, the temptations of Christian work are very great to turn your eyes away from the Lord. But, of course, the wonder of Christian work where you can deal with Christian things all your time is marvellous to have that privilege. And it should develop you even faster than if you were not in full time~~x~~ Christian work into the kind of spirit God wants you to be, but it may not. You have to keep your eyes on the things that are above. Abide in Him, and then He will give you fruit and then He will make you want He wants you to be. Let us pray:

Our Father we thank you for the mystery of the will of God. We~~XXXX~~ thank you our Father that we know that whether we succeed or whether we fail
