The persecution and torture is beyond description. In the providence of God Solzenitzen being a great genius as a writer --though the whole trend of our civilization is aganst paying any attention to any criticisms of Russia, his works are so outstanding that they are being widely read. You cannot read his writings without seeing that the Russian people are among some of the most unfortunate people and unhappy people where they are. But this propaganda is being spread in our papers, in our TV constantly, and in the churches--in 3/4 of the churches of our country today. So we are in a situation we have never had in the history of the world. What shall be do in relation to it? The most important is to preach the gospel. The most important thing is to present God's word and win souls to Him. What is our relation to these movements today. I would say the most important is we avoid being yoked in any way with those who are pulling in an opposite direction from that which God wants us to go and pull. We shuld should avoid all such unequal yokes. That is so imporant. I know of some many who have gone into an organization controlled and in the hands of those who deny the gospel, and have said, "I can go in there and I can preach the gospel and lead a lot of people to the Lord." God does not want us to be hypocrites. We wants us to oppose all those who deny basic truth. Along with that we must also think of the thousands of people who are being led along through such organizatiass not realizing what is happening. How reach those people for the Lord? It requires thought and consideration. We can't just make blanket rules. We can't shut ourselves off in a corner and simply be correct in our selves. We have to affect the world in which we live. It requires
