

us backward into a fanaticism that does harm rather than good to God's purposes. Let us pray:

Our Father we have tried to cover much ground in this brief time. We have tried to express certain vital thoughts, but we ~~pray~~ pray you will take the great vital, central truths of your Word and drive them into our hearts, and help us to propagate and spread them.

But O our God help us never to lose our hold on the foundational truth, and help us to lead others to understand it and to follow it. Help us not to put our stress on minor points, and never to major on the minors and then as is so often the case to minor on the majors. Give us balance and effectiveness in these days. Help us to stand for the truth no matter what comes, we ask it in Jesus Name. Amen.
