

We can find nothing but frustration and disappointment if we put our major emphasis to building and making this world better. We should do what we can along the way. But what this world is going to be 100 yrs or 1000 yrs. from now if the Lord tarry is not a thousandth as important as what is going to happen to a particular individual, because that individual ----- This country in the Lord's mercy if Jesus tarryes may last 1000 yrs., but nobody that I know of has lasted longer than that, without tremendous changes. But the individual has -- is a spirit that will exist forever. What you can do to win an individual to the Lord Jesus Christ is far more important than what you can do to make this country or this world a better place to live in.

God calls to the casting down of strongholds. He calls us to free those whom Satan has taken captive at his will. May we avail ourselves of the Scriptural resources for protecting ourselves from the snares of the devil that we all need so badly, but let us not have a fortress mentality but let us have a Christian mentality with confidence in God to step forward and accomplish great things for Him.

Let us pray: O God, our Father, we thank you that you have given us the assurance that == in your word that great as are the forces that are in this world, You are 1000 t. greater. We thank you that you control and that all things happen in accordance with your will, but we know you have condescended to use us as your instruments. O our God help us each one to determine not to let the little things of flesh and blood become too big in our consideration of this short human life, but let us be instruments of God in the casting down of strongholds and the advancing of the Word of Christ. We ask in Jesus' Name. Amen.
