

I may talk to you four times and not recognize you the fifth time! So please the first eight times you talk to me tell me what your name is. I wish you would do that. (indistinct). I assure you that they and I are tremendously interested in your advancement in your course. In your increase in understanding, and in your development into the jewel God wants you to be. Everyone of us have faults we are apt to fall into. Sins and errors we are apt to fall into, and we need to not keep these things bottled ~~in~~ up within ourselves, but to get the help of other Christians. And the members of the faculty are anxious to be of help to you in these ways, and I am anxious to be of help. It will help if you give me your name when you speak to me. I am very anxious to be of any help to you I can.

My course in Daniel is open to everyone this year. It is one hour a week. Unless you take that you may not see a great deal of me, but whether you do or not, if there is any way I can help you please make an appointment with me through the Registrar's office. Make an appointment and I'll be glad to see you some time within the following week. If it's an emergency I drop everything and see you any time, and please if it's an emergency consult me or some other member of the faculty. Because we are anxious to help you. Our purpose here--we are tremendously interested in scholarship and in the advancement of knowledge, but our primary ^{purpose} ~~purpose~~ is to be God's tools in helping to fashion each one of you into the tool He wants you to be. God can fashion each one of you into the jewels He wants you to be. So let us not be unwise but understanding what the will of the Lord is. Let us walk circumspectly, not as fools but as wise.
