

to have regretted the extreme nature of the leadership ^{toward} ~~before~~ the end of his life. I don't know whether that was true or not, but at least he and the original leaders followed along. But this second group was a group which was determined to make the progressive education an instrument for the complete change of the ~~sel~~ social system of America. One of the leaders of this group was a man named Rugg, and Rugg wrote a large number of textbooks for all the grades ~~right~~ right through Jr. ~~High~~ High. Books for the children, books for the teachers, a whole system of education and ~~xx xx~~ as many as five million children have been trained with Rugg's books. And his books ~~deliberately attack~~ ~~attacked~~ attacked the character the founders of America, have said that our ~~xx~~ constitution was ~~make-~~ made by people who were simply interested in maintaining their own wealth and their own position, have run them down and criticized American customs and have said that in Russia you have a situation where you have everything planned, instead of ~~x~~ being the result of selfish competition, and these ideas of central ~~plann-~~ planning and ~~o: x~~ admiring the Russian system have been implanted in the mind of child after child from 1930 to ~~ix~~ 1950, Rugg's textbooks were used all over the United States, and yet how many ~~peeele~~ people were over here criticizing them, people send their ~~pee:le~~ people to school. Are they getting an education or learning something. Well, if they find that they can't spell eat, they may get ~~ex-~~ excited, but they don't know that they are being taught that Americanism is no good, and that the founders of our nation were utterly wrong in all of their concepts and that there are no absolute ~~fal~~ values, and there are no 10 commandments and we need everything ~~x~~ centrally ~~plall-~~ planned as it is in Russia, but this has been instilled ~~finto~~ into the minds of children from 1930 to 1950 by this ~~onex~~ group of books... What are our parents of America doing, what don't they ask the school board to investigate the school board to investigate the sort of books that are ~~ge-ig-~~ going to be used in their school. Why don't they look over the books that ~~thei-~~ their children are having in schools. Why didn't they do something about this 30 years ago. instead of ~~x~~ having it come on without their even knowing about
