

can put his confidence in. And the just shall live by His ~~faith~~- his faith in the dependability of God. People talk that faith is all you need, doesn't matter what you have faith in. ^{Dr. Moody's} A.A. has got hold of a great principle, the importance of faith, and they have ~~x~~ helped many many people by turning their minds away from themselves to something outside of themselves, to recognize that they cannot handle the problem, they must look to something beyond and above themselves. And they will find the answer there. And so they say just realize your weakness, you can't do anything about it, but look to something beyond you. Now, it doesn't matter what it is. Just so you feel there is something beyond you, that is salvation by faith, yes, but ~~simply~~- simply by our faith rather than faith in something and that faith will never take you ~~thru~~ through eternity unless it is a faith that is rooted in something that is definite, in something that is real. I once had an appointment with a friend in Berlin. We ~~are~~ were American students there in Berlin, together this fellow said to me, Tomorrow morning, he said I'm meeting a friend and we are going to go ~~th~~ to the Cathedral to service. Would you like to go with us. Well, I'm not sure yet, what I'm going to do tomorrow, I might join you, where would I find you. Well, he said, I'm going to meet this friend at the sub-way station of such and such a station which was not far from where I lived, and ~~x~~ he said we are to meet at such and such a time, and if you come ~~ever~~ along we would be glad to have you go with us. Well, it so happened that I came there about half an hour after the time that he had stated. And when I got there I thought that he had doubtless gone but just thought might have been late, I'll just take a look. So I went into the station, there was a level here, I went down and I ~~did~~ didn't see him so I went down to the level below that and here there was a space and beside it on the ~~pal~~ platform he was walking back and forth, walking back and forth, He ~~ah~~ had been walking ~~back~~ back and forth thinking and waiting for the ^{friend to come} ~~train~~, and I stepped up to him and I said

~~Oh, you~~
