

Our course in Apostolic History will cover the history of Christianity in the Apostolic Age. ^{church} The story of the Christian religion in the times of the apostles ~~of Christ, is to be studied~~ ^{about} in this class. This period takes us from the year A.D. 30 to the close of the first century. From the resurrection of Jesus to the death of the apostle John Between A.D. 90 and 100 covers the age of the apostles. The primary sources for this important history are the Book of Acts, the Epistles, and the Book of Revelation. Every book of the New Testament outside the four Gospels gives us information of value in the study of Christianity in the apostolic era. Since there is a great amount of material to be covered, it will be necessary ^{in this course} to limit class discussion to a minimum. There will not be very much time for discussions in class because of the large portions of the history which we want to study in this particular course. If there are questions pertaining to the subject considered, such questions may be written out and handed in each class period. Each hour's meeting of the class will give every student an opportunity to ~~hand in~~ state any question he has in writing. Such questions are to be given the instructor at the ^{end} close of the class. ~~hand in~~ In the event some point has not been made clear or sufficient evidence has not been presented to support an opinion or a view expressed, it will be appreciated if this matter is called to the attention of the instructor by such a note. Perhaps you might have some problem in mind which has not been cleared up or maybe you want further proof in support of some interpretation, if this is the case, write out your question and pass it to the instructor. ~~Thank you~~ Thank you very much for keeping this suggestion in mind.
