

3 -3.50 ...the most precious thing in the universe is God and above all, the Lord Jesus Christ...who gave His ~~it~~ life that we might be saved. Now, I will mention to you a copy of Life Magazine that appeared comparatively recently and on the cover it had a picture of Fred Owen , and it describes ~~it~~ how he is the professor of Astronomy in \_\_\_\_\_ Un. during the sizable part of the year and another part of the year he ~~spee~~- is a professor at the Cal. Institute of Technology. And all about his great activities in connection with the Steady state theory. I have a book by Fred Brown on the nature of ~~the~~ the ~~rx~~ universe and in ~~the~~- this book in the last chapter he gives a very interesting ~~question-as-~~ summary of ~~man's~~ man's situation in the world. He said we are in ~~a~~ a most desperate situation. He said man is ~~a~~ in a very desperate situation. ~~2~~ He says there are people today who are materialists and ~~materialists-xx~~ <sup>materialism</sup> is not the ~~anser~~ answer to our situation. A materialists is like a man who ~~he-e~~ is on the side of a great cliff , ...he does not know how to go up. He doesn't know how ~~th~~ to go up . He doesn't know what to believe . He looks down to the drop ~~belee-~~ below and he said I'm ~~pa--~~ perfectly safe. He ~~a~~ says that's materialism. Then he said the second answer to our ~~preg~~ problem is the answer of the religious person. He says the religious person is ...goes up as ~~a~~ fast as he can and ...but ~~we-may-~~ he may find himself ~~caud-~~ caught himself ~~e-~~ in...
